

PUBLICATION REQUEST FORM

NIGMS provides free publications in PDF, HTML, E-PUB and print formats. To order single, print copies of certain NIGMS publications, check the boxes to indicate which publications you would like to receive, fill in your name and address at the end of this form, and mail or fax this form to:

Office of Communications and Public Liaison
National Institute of General Medical Sciences
45 Center Drive MSC 6200
Room 3AN.32
Bethesda, MD 20892-6200
Tel: 301-496-7301 / Fax: 301-402-0224

This form is for U.S. orders only.

For larger quantities, please send an e-mail message identifying your school or other organization and describing the intended use of the material requested to info@nigms.nih.gov or call 301-496-7301.

Science Education/General Public

- The Chemistry of Health**
NIH Pub. No. 09-4121, printed 2009, 20 pages
Describes basic chemistry and biochemistry research that spurs a better understanding of human health.
<http://publications.nigms.nih.gov/chemhealth>
- The Chemistry of Health Companion Poster**
NIH Pub. No. 09-4121p, printed 2009
Features chemists and chemistry tools and applications.
<http://publications.nigms.nih.gov/chemhealth/COHposter.pdf>
- Computing Life**
NIH Pub. No. 10-5861, printed 2010, 24 pages
Showcases the exciting ways that scientists are using the power of computers to expand our knowledge of biology and medicine. <http://publications.nigms.nih.gov/computinglife>
- Curiosity Creates Cures**
NIH Pub. No. 120, printed 2012, 2 pages
Conveys the importance of basic biomedical research in leading to new medicines, technologies, scientific tools and economic payoffs.
http://www.nigms.nih.gov/Education/Pages/factsheet_curiositycreatescures.aspx
- Findings Magazine (latest issue)**
Showcases diverse scientists who do cutting-edge research and lead interesting lives. Each issue contains research highlights and a puzzle or other activity.
<http://publications.nigms.nih.gov/findings>
- Findings Companion Poster – Find Out**
Printed 2013
Features some of the scientists from *Findings* magazine and provides subscription information for free copies.
http://publications.nigms.nih.gov/findings/FindOut_poster.pdf
- Inside the Cell**
Print version no longer available
NIH Pub. No. 05-1051, revised 2005, 80 pages
Makes cell biology come alive through vivid descriptions and stunning images.
<http://publications.nigms.nih.gov/insidethecell>
- Inside the Cell Companion Poster – Seeing Cells**
NIH Pub. No. 05-1051p, printed 2012
Shows a variety of beautiful cell images and provides some basic facts about the cell.
<http://publications.nigms.nih.gov/insidethecell/poster.pdf>
- Medicines By Design**
Print version no longer available
Discusses the many different ways medicines work in the body and how this information guides the hunt for drugs of the future.
<http://publications.nigms.nih.gov/medbydesign>
- Medicines for You**
NIH Pub. No. 05-4657, revised 2005, 4-fold brochure
Describes how genes affect the way people respond to medicines and answers questions about this field of research, known as pharmacogenetics.
<http://publications.nigms.nih.gov/medsforyou>
- Medicinas Para Usted**
NIH Pub. No. 05-4657s, printed 2005, 4-fold brochure
Spanish version of *Medicines for You*.
http://publications.nigms.nih.gov/medsforyou/index_esp.html
- The New Genetics**
NIH Pub. No. 10-662, revised 2010, 90 pages
Explains the role of genes in health and disease, the basics of DNA and its molecular cousin RNA and new directions in genetic research.
<http://publications.nigms.nih.gov/thenewgenetics>
- The New Genetics Companion Poster – Living Laboratories**
NIH Pub. No. 07-662p, printed 2006
Features a few of the simple, easy-to-breed organisms that are important in medical research.
<http://publications.nigms.nih.gov/thenewgenetics/poster.pdf>
- The Structures of Life**
Print version no longer available
NIH Pub. No. 07-2778, printed 2007, 64 pages
Reveals how structural biology provides insight into health and disease and is useful in developing new medications.
<http://publications.nigms.nih.gov/structlife>

NIGMS Programs

The Careers and Professional Activities of Graduates of the NIGMS Medical Scientist Training Program (MSTP)

NIH Pub. No. 98-4363, printed 1998, 43 pages

The MSTP supports research training leading to the combined M.D.-Ph.D. degree. This publication reports the results of a study that was conducted to assess the success of MSTP graduates in establishing research careers and the types of careers and research activities of MSTP graduates.

<http://publications.nigms.nih.gov/reports/mstpstudy>

Investing in Discovery: An Overview of NIGMS

NIH Pub. No. 15-7611, printed 2015, 3-fold brochure

Describes the NIGMS mission and research areas, as well as its commitment to training future scientists and strengthening public understanding and appreciation of science.

<http://publications.nigms.nih.gov/NIGMSbrochure>

Investing in the Future: NIGMS Strategic Plan for Biomedical and Behavioral Research Training

NIH Pub. No. 11-7673, printed 2011

Reflects NIGMS' long-standing commitment to research training and the development of a highly capable, diverse biomedical and behavioral research workforce. The document will help ensure that the Institute's training activities contribute most effectively to building the scientific workforce the nation needs for improving health and global competitiveness.

<http://publications.nigms.nih.gov/trainingstrategicplan>

National Institute of General Medical Sciences Strategic Plan 2015–2020

Print version not available

Outlines many of the priorities, objectives and goals that the Institute will pursue. The plan, which incorporates input from the scientific community, is designed as a framework to codify and focus Institute activities, while still allowing the flexibility to pursue untapped opportunities in areas relevant to the NIGMS mission.

<http://publications.nigms.nih.gov/strategicplan>

National Institute of General Medical Sciences Strategic Plan 2008–2012

Print version no longer available

NIH Pub. No. 08-6376, printed 2008, 20 pages

Articulates NIGMS' mission, core principles and strategic goals. The document will guide the Institute's decision-making over a 5-year period.

<http://publications.nigms.nih.gov/strategicplan2008-2012/>

Research Training Opportunities Flyer

Printed 2013

Provides an overview of NIGMS research training opportunities available to those interested in pursuing careers in the biomedical or behavioral sciences.

<http://www.nigms.nih.gov/training/documents/NIGMSTrainingFlyer.pdf>
